– Land & Enslaved People’s Acknowledgment –

Public Hospital District #2, Snohomish County (the Verdant Health Commission), recognizes that we live and work on the ancestral homelands and traditional territories of Indigenous peoples who have been here since time immemorial.

We also recognize that many enslaved and contracted peoples were forced to dedicate their work to the construction of what is now the South Snohomish County area.

In recognition that this land is colonized Indigenous territory that has been designated through slaves and hired labor, it is our collective responsibility to critically interrogate the stories and later lives of these people, and to honor, protect and sustain this land.
Call to Order
The regular meeting of the Board of Commissioners of Public Hospital District No. 2, Snohomish County, was called to order at 8:00 a.m. by President Distelhorst.

Land and Enslaved People’s Acknowledgement
President Distelhorst read the acknowledgement.

Consent Agenda
Commissioner Knutsen made a motion to approve all items included on the consent agenda, Commissioner Wilson seconded. Motion passed.
Consent Agenda (E:34:23)
1. Approval of Minutes:
   a. April 26, 2023 Regular Board Meeting
2. Resolution 2023:05 Swedish Hospital Asset Disposal

Public Comments
Ms. Caballero read one public comment submitted in writing:
Guillermina Gonzalez: "They are beneficiaries of the fruit and vegetable coupons. They are very grateful to receive these vouchers as it really helps their family financially – the money they would have been spending on healthy food they can now spend on other necessities. They have prediabetes and the doctor recommends that they eat more fruits and vegetables, also for their children. Her son loves strawberries, and they can be very expensive sometimes. They appreciate the help with these food vouchers and please continue to give them out."

Executive Committee Report
President Distelhorst reported that Executive Committee met on May 17th to approve the agenda for today’s meeting. No action was taken at the Executive Committee meeting.

presentation: moss Adams annual 2023 audit
Ms. Simpson introduced the two senior auditors from Moss Adams, Matthew Stopa and Mary Wright, who were involved in the 2023 annual audit. Mr. Stopa began his presentation by walking through the five required communications with Commissioners as they completed their annual audit. The audit concluded with an unmodified opinion, which is a clean audit. There were significant changes to 2021 and 2022 with the new lease accounting standard implemented for 2021. You can see how this impacted the total assets and net position for 2021 and 2022. For every $1 in District expenses, Verdant is spending $0.69 towards Programmatic expenses (internal and external). This comes to a total of $43 million invested back into the community over the past five years (2018-2022).

President Distelhorst asked Mr. Stopa to clarify the findings of the audit.
- Mr. Stopa reiterated that the audit was clean, there were no internal control matters of note, and the District passed the annual audit.

Commissioner Brennan asked Mr. Stopa to repeat his statement about the amount of money the District has put back into the community.
- He clarified that yes, the figure of $43 million invested in the community is just over the past five years.

Commissioners thanked the auditors for their presentation.

Organizational Capacity Status Report
Dr. Edwards presented a slideshow outlining the fourth strategic priority of Verdant’s 2023-2024 plan (E:36:23). She spoke about the progress so far and goals for future implementation.
Ms. Silverman spoke about the goals for making the grantmaking priorities and procedures more transparent to the community. Over the next 12-18 months this also includes making grantmaking more equitable, diversifying Verdant’s grantmaking portfolio, and creating opportunities to test new ideas around funding and collaboration with our community partners.

Ms. Simpson spoke about the work underway to maintain the integrity of the District’s largest capital assets – its properties. It has been critical that Verdant staff are engaging more heavily with our Property Manager to take the extra facility workload off the Director of Finance and Superintendent (roughly 30-40% of time per week).

Dr. Edwards continued to provide an update on the remaining areas of this Organizational Capacity strategic priority – discussing keeping Verdant a great place to work, its progress toward its DEI efforts, and future opportunities to reach the goals of this strategic priority.

Dr. Edwards introduced Master of Public Health Student from UW Seattle, Dominique Ongaro, who is working on a research project for Verdant as part of her masters curriculum. She will be creating a dashboard for Commissioners to keep track of progress related to its 2022 Community Perspectives Study. Part of this work will involve reaching out to community partners involved in the 2022 study and asking for status reports to see if the issues that were highlighted from the community survey have been getting better or worse.

- President Distelhorst looks forward to seeing how her work can help the Board promote an effective process in measuring its strategic goals.
- Commissioner Brennan is excited to see the collaboration between staff and our effort to review this data in a methodical and equitable manner.
- Commissioner Knutsen is excited to see the dashboard, as this is often used in hospital systems and can be a simple clear way to view a snapshot.

Ms. Silverman introduced Christina Bernard of Pacific Hospital Preservation & Development Authority (PHPDA) who has been invited today to speak to Commissioners about their nimble grants program and how they implement it. Ms. Bernard began by explaining that PHPDA is similar to Verdant as it is a public agency with the ability to provide grantmaking dollars from the revenue it receives from its properties. They have a lean staff of
Commissioners Meeting
May 24, 2023

five people and just three days ago onboarded a new Executive Director.

Their nimble grants (small grants) are under $30,000, provided for one year, for a one-time project or capital purchase, and are not renewable. They have a nimble grant cycle three times per year and are considering going down to two times per year.

They fund just a few nimble grants per cycle. Once the recipient’s nimble grant period is over and their project is complete, they are welcome to apply to PHPDA’s major grant cycle (large grants) if their work can continue.

- Commissioner Wilson asked Ms. Bernard what the average length of their major grants is.
  - Ms. Bernard answered that all major grants are funded for one year, with the option to renew for up to two additional years. Major grants are not provided for more than three consecutive years. If an organization reaches year three, they are required to take a one-year break before applying for another major grant for that same program. If the organization has a new project after its three years, they can apply with a new project.

- Commissioner Knutsen asked Ms. Bernard if they see that these nimble grant or major grant organizations continue their projects after their one- or three-year grant term is up, or if their program ceases to continue.
  - Ms. Bernard answered that as far as they know, once PHPDA ceases its funding for major grants, the programs do continue. The nimble grants, however, mostly conclude after one year since that money goes toward more short-term initiatives.

- Commissioner Knutsen followed up asking if a nimble grant recipient changes its focus, could it then apply for one of PHPDA’s major grants?
  - Ms. Bernard answered that the specific program that received the nimble grant cannot continue for funding under a major grant. However, if the organization changes its focus, they could then apply for a major grant for a new project.

- Commissioner Knowles asked how PHPDA handles the major grant start date and major grant renewal dates being on the same term since all the requests and renewals come in at the same time.
  - Ms. Bernard answered that yes, their first-time major grant period and renewal periods are around the same time, so it is busy. However, they
administer their nimble grant cycle at alternative times, so those one-year cycles are on a slightly different schedule.

- Commissioner Knutsen asked where PHPDA gets their revenue and how much they can grant.
  - Ms. Bernard explained that PHPDA owns the Pacific Tower building at the intersection of I-5 and I-90 which was the first U.S. Marine hospital in Seattle. The building is now full of tenants who pay PHPDA rent. PHPDA uses this lease revenue to provide grantmaking toward equitable healthcare access. They receive ~60 major grant applications per cycle and have a panel review process which narrows the applicants down to around 12, and they only award 6 or 7. They award 10-12 nimble grants per year.

- Ms. Silverman asked Ms. Bernard to share how the LOI (letter of intent) process works for their funding applications.
  - Ms. Bernard explained they use these LOIs for their major grants. They are short 1–2-page letters explaining the need for their project and the organization’s goals for serving that need. PHPDA has a very competitive process with the amount of LOIs they receive and the number of projects they fund (6 or 7 per cycle). These LOIs are due in January and their funding begins July 1.

- Ms. Silverman asked Ms. Bernard what contributes most to the success of the nimble grant program.
  - Ms. Bernard answered that the nimble grants program allows them to address urgent needs that come up but don’t fit within the major grant cycle. These nimble grants have a slightly different focus and often have a direct and immediate community impact. Nimble grants allow PHPDA to explore new work and facilitate new work in the community.

**Superintendent’s Report**

Dr. Edwards is working with Verdant staff and Commissioners to explore opportunities to fund an additional supply of Narcan nasal spray to Lynnwood Police and South County Fire. Emergency responders are using up their Narcan supply at an alarming rate, whereas it is taking 4-6 doses of 8mg to bring someone back from an opioid overdose.

Verdant is partnering with the City of Lynnwood, Edmonds School District, Lift Every Voice Legacy, and Project Girl to put together a fun Juneteenth event on June 19th from 10am-3pm at Cedar Valley Community School.
Verdant has hired a new Social Media Intern, Zayna Jawo, and we will introduce her at the next Board meeting. Mr. Mathis will be working with two Digital Scholars interns from UW Bothell on more social media projects. One will help us with our LinkedIn profile, and the other will get Verdant active on TikTok. Verdant will be posting some volunteer roles on our website next week to provide additional event coverage, office support, and photography.

Verdant is entering its “community outreach season” (summertime) and staff will be busy promoting Verdant in the community. We have a new outreach event this year at the Alderwood Mall on Saturday, July 22nd.

Program Committee Report

Conflicts of Interest
None.

Superintendent’s Discretionary
Ms. Silverman reported that two organizations were recently awarded funding from the Superintendent’s Discretionary fund. The Asian Service Center received $10,000 and Inside Health Institute received $13,000.

Swim Vouchers
Ms. Silverman reported that Verdant recently got word that two municipal entities, City of Mountlake Terrace, and City of Lynnwood, have agreed to begin providing financial support of the drowning prevention program which provides swim vouchers to school-aged children. Verdant will provide $10,000 matching funding to each entity. We are still waiting to hear if City of Edmonds would like to participate in funding the effort. Verdant will be issuing a joint press release soon to notify the community of this partnership and our combined efforts to promote drowning education and safe swimming in our communities.

Finance Report

Review Financial Statements & Cash Activity
Ms. Simpson presented the financial reports for April 2023 (E:37:23), noting any transactions out of the ordinary, compared to prior month periods. This month’s reports you will see the grant payments go out with the 4/1/23 start date.

- Commissioner Wilson asked Ms. Simpson if there is a way we can show a breakdown of the different revenue streams (income from Swedish Edmonds, Kruger Clinic, ground lease, etc.) so the community can better see where the 20% we are sending to our reserve account comes from.
Commissioners Meeting
May 24, 2023

- Ms. Simpson will look at this over the next month and present a couple of alternative views of the revenue breakdown at the June Finance Committee meeting.

Authorization of Payments of Vouchers and Payroll

Authorization for payment of vouchers and payroll:
Warrant numbers 16030 through 16070, J2100 through J2129, 305555 through 305557 for April 2023 for total warrant payments in the amount of $182,786.33 were presented for approval (E:38:23).

**Motion was made by Commissioner Knowles, seconded by Commissioner Wilson and passed unanimously to approve the warrants.**

Public Comments
None.

Commissioner Comments
Commissioner Knutsen thanked everyone for their hard work and got lots of thoughtful information about nimble grants.

Commissioner Wilson liked hearing the information about the nimble grant program of a similar organization to Verdant.

Commissioner Knowles would like to see what PHPDA’s criteria are for their nimble grants. He thinks Verdant should notify the public about what we are doing to fight the opioid epidemic.

Commissioner Brennan is interested in learning more about PHPDA’s panel review process and their timing of grantmaking throughout the year. She made a call out to the recent Narcan trainings Verdant held and the important advocacy our Community Social Worker Nancy is doing.

Adjournment
The meeting was adjourned at 9:39 a.m. by President Distelhorst.

Call to Order

The special meeting of the Board of Commissioners of Public Hospital District No. 2, Snohomish County, was called to order at 4:06 p.m. by President Distelhorst.

Land and Enslaved People’s Acknowledgement

President Distelhorst read the acknowledgement.

Summary Snapshot and Timetable

Ms. Silverman reported as of the close of this funding cycle on Friday, June 16th, there were 32 applications submitted (E:39:23). Of the 32, eleven of these are new partners Verdant has not funded before. The 32 applications equal $5.9 Million in requests. Since Commissioners under-funded the Spring 2023 cycle, there is leftover money from that cycle that will roll over to this Fall 2023 cycle as it is in the same fiscal budget year.

Ms. Silverman walked Commissioners through the timeline of workflow for the Fall 2023 funding cycle (see E:39:23, slide 8).

Avoiding Conflict of Interest and Understanding Bias

Dr. Edwards presented slides about conflict of interest to remind Commissioners of our requirement to disclose a potential conflict and abstain from scoring a particular grant application if needed (see E:39:23, slides 9-14).

Ms. Silverman provided a reminder to Commissioners about biases and how to recognize them and be aware of how they may be swaying your decision as you review these grant applications. There are five main types of biases which impact decision-making (see E:39:23 slides 15-21).
She asked staff and Commissioners to share examples of a tool they have used to try and reduce bias?

- Commissioner Knutsen was involved with a group who would pass out the plastic glasses and mustache-noses to wear as their “racial bias glasses” before they would enter a discussion about a particular topic.
- Commissioner Brennan reads a grant application multiple times before scoring, which can lead to different opinions of an application based on different times that you reviewed it.
- Commissioner Knowles added that there is no way we can fully eliminate bias. You could have a sign up on the wall that says “BIAS” just to constantly remind yourself to check in with your biases to see if it is influencing you.
- Commissioner Brennan commented that she gives pause in thinking about the diversity of our Board is, and that is something we need to be aware of.

Ms. Silverman shared a slide showing the key barriers to organizations in securing resources (see E:39:23, slide 22). Each organization comes from a different place and is at different stages in their development. It is important to remember this as we review the funding requests.

**Best Practices and Reviewers Toolbox**

Ms. Silverman provided a reminder to Commissioners about the tools you should utilize as your review these applications (see E:39:23, slides 23-26).

**Reviewer Roles and Next Steps**

Ms. Silverman reminded Commissioners about the timeline of this funding cycle, outlining the different roles of staff and Commissioners leading up to the final decision-making Special Board meeting in late August (see E:39:23, slides 27, 31-32).

**Fluxx Demo**

Ms. Boehm walked Commissioners through the steps to access grant applications for scoring, when Commissioners will have access starting July 7th. Verdant staff will be providing a PDF file of all applications to Commissioners on 6/21. This PDF is where they can see all applications and Fluxx will show only the applications that are assigned to them.

Commissioner Brennan asked how staff will assign applications to Commissioners.

- Dr. Edwards reminded Commissioners about our process last cycle having each committee score a specific priority area.
- Commissioner Wilson said having applications assigned to Committees by priority area would work, like they did for Spring 2023.
- President Distelhorst would prefer to have a mixture of each priority area. He added that having the Secretary on multiple committees means that she had to review twice as many applications.
Commissioners Meeting
June 20, 2023

- Commissioner Knowles agrees that how Commissioners split the applications last time, by priority area, worked for him.

Ms. Boehm will create a reviewer packet with FAQs and link it in Fluxx for Commissioners to access.

**Commissioner Comments**

Commissioner Wilson asked how many applications we received for the Spring 2023 cycle.
- Dr. Edwards answered 45 applications.

Commissioner Wilson asked how much money was granted for the Spring 2023 cycle.
- Ms. Boehm answered the total requested was $7,520,250.50 and Commissioners awarded $4,350,522.50.

Commissioner Knutsen asked if we will receive a summary of what the budget allows for funding for this Fall 2023 cycle, so that Commissioners know how much money is available to award.
- Dr. Edwards answered yes, we will provide clarity on what the budget allows for funding, showing what is rolled over from the prior funding cycle and available for funding in this current cycle.

Commissioner Brennan commented that she recently met with the Masters of Public Health intern, Dominique, and believes it will be great to be able to see the dashboard when it is ready.

**Adjournment**

The meeting was adjourned at 5:06 p.m. by President Distelhorst.

**ATTEST BY:**

Matt Hoffman, Maul Foster & Alongi

Call to Order
The special meeting of the Board of Commissioners of Public Hospital District No. 2, Snohomish County, was called to order at 9:00 a.m. by President Distelhorst.

Land and Enslaved People’s Acknowledgement
President Distelhorst read the acknowledgement.

Presentation: Maul Foster & Alongi: Options for Value Village Site Remediation
Ms. Meaghan Pollock started her presentation by providing an environmental overview for how Maul Foster determined the recommendations to be presented today (E:40:23). The highest contamination of corrugated solvents is in the northwest corner of the property. Potential sources of the contamination include a leaking underground storage tank on the southwest corner, poor property development, or an off-site source. The contamination is so low, it’s possible the hardware store that was on the land previously, was dumping its hazardous waste directly onto the parking lot.

She briefed Commissioners on three different remediation options, with costs, and walked through each option in detail (see E:40:23).

Commissioner Discussion
President Distelhorst thanked Ms. Pollock and Mr. Hoffman for their succinct and clear presentation of options. He asked the other Commissioners if they had any questions for Maul Foster & Alongi.
Commissioner Brennan asked the other Commissioners what our process is for deciding on the remediation option, when that happens, and if there will be a public comment period.

- President Distelhorst answered that no decision is needed today. Today we are presented with the options and given the opportunity to ask the environmental consultants our questions.
- Ms. Pollock added, once a decision is made, there is a 30- or 90-day public comment period, then they can proceed with the work. If the work will be paid with a public grant, there needs to be a public comment period.

Commissioner Brennan asked what the site remediation means for the sale of the Value Village property to South County Fire.

- Mr. Bob Eastman of South County Fire answered that the fire district just got this report as well. They need to talk to their legal team to determine what the site cleanup options mean for the sale. The most expensive option was proposed in case South County Fire decides to create a multi-story building on the property, in addition to the fire station, which could act as a community resource for the District. This is a larger investment for cleaning the property, but it means there would be community resources available for years to come. The reason that option is more expensive is because the cleanup has to go underground much deeper, to provide for the 5-story structure on top of the land.

Mr. Matt Hoffman asked the Commissioners if, when the Hospital District bought the Value Village property, did they conduct an “all appropriate inquiries” which would open the door to public funding.

- Dr. Edwards answered that staff will check the original purchase agreement, from ~1980s, and get back to Maul Foster & Alongi. Mr. Hoffman added that the purchase date will also be an important factor in having public funding available.

Commissioner Knutsen asked for clarification that the majority of the contamination is not too deep. If we focus on cleanup of this shallow option, what is the risk of paying more money as we go deeper?

- Ms. Pollock answered, yes, the contamination is mostly at the 6-foot depth. There is always a risk once you begin construction that you will find additional issues which will cost more money. However, they did test 10-15 feet below the surface and don’t expect that a parking structure would require them to test much deeper than that.

Mr. Eastman of South County Fire commented they will take the information they have gathered over the three phases of this environmental study, and discuss the options with their legal team.
He wants to mutually resolve the site cleanup with Verdant, using the best avenue and the most economic option for all parties. There could be public funds available for this site remediation.

Commissioner Brennan asked when the cleanup will take place – before the sale, or as part of the sale and included in the sale price?

- Mr. Eastman answered that he understands the Hospital District can’t sell the property for less than 90% of the appraised value. He will be talking to their legal team on the options and when site cleanup should take place as part of the sale.

Commissioner Knowles asked if the need to have a site cleanup affects the appraised value of the property.

- Dr. Edwards answered that we are fast approaching the 9/1/23 deadline of our current three appraisals. We will have to include the findings of this environmental impact study if we have to get updated appraisals.

Dr. Edwards asked Mr. Eastman when we should expect to hear back from him after he consults with their legal team.

- Mr. Eastman answered by that first week of August. This gives them 3-4 weeks to go back and forth with the legal team and get all their questions answered.

**Adjournment**

The meeting was adjourned at 9:32 a.m. by President Distelhorst.

Grant Modification Request Form (rev May 2023)

Use this form to proactively communicate with Verdant about changes to the grant period, scope, budget, and/or outcomes during the performance period. This form must be submitted no later than 30 days before the current grant end date for consideration. Written approval from Verdant is required before any changes to the grant are implemented. The change requests may fall into one or more of the following categories:

1. Request to Extend Grant Period with Awarded Funds (i.e., No-Cost Extension)
2. Request to Pause Grant Activities
3. Request to Modify Grant Outcomes or Scope
4. Request to Reallocate Funds from One Budget Line to Another
5. Request early-termination of grant

☐ 1. REQUEST TO EXTEND GRANT PERIOD*

Current grant end date: 06/30/2023    Requested end date: 03/31/2024

Current balance of unspent funds: $65,000

*The no-cost extension request requires grantee to utilize the funds awarded and approved in order to carry out the approved project. In sum, the grant is extended beyond original end date with no additional funding from the Verdant Health Commission.

Reason for extending the grant period

Briefly describe the circumstances necessitating an extension.

For the grant period, Cocoon House has been recruiting and seeking to expand the Connections Host Home program in the South Snohomish County area. Unfortunately, the agency has experienced unusually high turnover across all direct service programs, and re-hiring has been slow. The result has been staff vacancies in the Connections program which has limited our ability to spend down the grant and execute the program to the level intended. The team is fully staffed now, and will continue to recruit host families and perform the functions of the Verdant grant beyond the current contract year, thus resulting in this extension request.
☐ 2. REQUEST TO PAUSE GRANT ACTIVITIES

What is the time period that you are requesting? From ______________ to ______________

Explain the request to pause grant activities:

Enter text here.

☐ 3. REQUEST TO MODIFY DELIVERABLES FOR GRANT

Provide a written description of proposed activities and deliverables that you will undertake with the existing funding from Verdant.

1. Request to Extend Grant Period with Awarded Funds (i.e., No-Cost Extension)
2. Request to Pause Grant Activities
3. Request to Modify Grant Outcomes or Scope
4. Request to Reallocate Funds from One Budget Line to Another
5. Request early-termination of grant

Organization: American Heart Association
Grant Title: Stop the Silent Killer – South Snohomish County
Grant Amount: $66,997.70
Point of Contact: Danielle Hammons
Grant ID# (located in the lower left corner of the agreement): G-202201-00141

This modification is being submitted by
Name: Danielle Hammons
Phone: (775) 342-9972
Date: 6/7/2023

1. REQUEST TO EXTEND GRANT PERIOD*

Current grant end date: June 30, 2023
Requested end date: August 31, 2023

Current balance of unspent funds: $10,067.16 (Total Grant Award:

*The no-cost extension request requires grantee to utilize the funds awarded and approved in order to carry out the approved project. In sum, the grant is extended beyond original end date with no additional funding from the Verdant Health Commission.

Reason for extending the grant period
Briefly describe the circumstances necessitating an extension.

A no-cost project extension is requested to complete the work on this project. The initial project award date was April 15, 2022. We experienced a delayed start in the grant-funded work as the grant agreement was not fully executed until June 2022. This led to delays in hiring the part-time staff funded through this grant and engaging other community organizations to participate. We request a no-cost extension through August 31, 2023, with a reporting date of no later than September 30, 2023, to allow time to complete the associated work as outlined in the proposal and original grant agreement.

☐ 2. REQUEST TO PAUSE GRANT ACTIVITIES

20 of 49
What is the time period that you are requesting?  From ____________ to ____________

Explain the request to pause grant activities:

Enter text here.

3. REQUEST TO MODIFY DELIVERABLES FOR GRANT

Provide a written description of proposed activities and deliverables that you will undertake with the existing funding from Verdant.

<table>
<thead>
<tr>
<th>ACTIVITY</th>
<th>MEASURABLE OUTCOME</th>
</tr>
</thead>
<tbody>
<tr>
<td>Approved Activity: Increase patient’s understanding of nutrition and how it’s correlation to high blood pressure.</td>
<td>300</td>

Briefly describe the new use of funds and the reason for reallocation:

Enter text here.

☐ 5. REQUEST FOR EARLY TERMINATION OF GRANT

Will you have a balance of unspent grant funds?  ☐ YES  ☐ NO

What is the amount of unspent funds that you will be returning to the Verdant Health Commission?
I attest that I am the authorized representative of my organization to complete and submit this grant modification request to the Verdant Health Commission.

Name: [Signature] Date: 6/7/2023

If you have questions while completing this document, contact Verdant at (425) 582-8600 or info@verdanthealth.org.

Verdant Approval: Date:

Notes:
DISCRETIONARY FUNDING REQUEST

ORGANIZATION NAME: City of Lynnwood
EIN or tax status: GOVT

PROJECT TITLE: (Low Income) Scholarship Swim Program Vouchers
REQUEST AMOUNT: $10,000

Completed by: Joel Faber
Date: 6-14-23

Point of Contact Email: jfaber@lynnwoodwa.gov
Phone: 425-670-5508

Proposed Start Date: As soon as approved
Proposed End Date: 12-31-23

PRIORITY AREA
Primary Priority Area – Healthcare Access

OVERVIEW

1. Organization Background and Alignment with Verdant Strategic Priorities:
Briefly describe the organization's background and how its program(s) align with one or more of Verdant's priority areas (see also Verdant website for more priorities):

   - Food Security
   - Healthcare Access
   - Mental Health

The City of Lynnwood Parks and Recreation Department has been providing classes, programs, events, and open spaces for the residents of Lynnwood since 1963. Our mission is: creating a healthy community through people, parks, programs, and partnerships. All of the programs and activities we offer improve the mental health of the Lynnwood community. Many health surveys have concluded that physical exercise, social connections, and access to nature improve an individual's mental health.

2. Project Scope (the "what" and "how")
Briefly describe the scope of the project for which funds are requested, how the funds will be applied, and capacity in place to ensure the successful implementation of the project.

The low-income swim lesson voucher program will provide 2 swim lesson vouchers per participant for those who need it most. These vouchers provide on average 10 swim lessons each session. We will administer the program in the following ways:

   - We will provide swim lesson vouchers to residents of Lynnwood who are approved to receive our scholarship called the Recreation Benefit Fund (RBF).
   - We will provide swim lesson vouchers for our entry level lessons.
• We will provide two swim lesson vouchers per participant to use in 2023.

• We will provide swim lesson vouchers for all ages.

We will reach out to current participants in our RBF scholarship. We will ask them if they would like to participate in the swim lesson voucher program. When a participant asks to be a part of the program, we will be load onto their account 2 swim lesson vouchers. The participants can register using these vouchers online ensuring them a better chance of getting into a swim lesson. With the City’s $10,000 match, we will be able to provide 275 swim lesson vouchers. $20,000 / $72.50 = 275 vouchers. Our swim lessons cost $72.50 per lesson series. Since we will provide two vouchers per participant, we will be able to serve 137 participants.

3. Population Beneficiaries (the “who”)
Briefly describe the population benefiting from the proposed activities or services and estimate the percentage residing in Verdant Service Area. Verdant funding is required to support residents in the Verdant Service Area.

The population that will benefit from this program are low-income resident of Lynnwood. 100% of the participants benefiting from this program are in Verdant’ s service area as to qualify, a participant needs to be a City of Lynnwood resident.

4. Desired Outcomes
Briefly describe realistic outputs and/or outcomes over the proposed performance period.

Over the course of two sessions of swim lessons, participants will become water safe. Our goal is, if a participant falls into water unexpectedly, they will have enough skills to prevent their drowning. This program is about drowning prevention more than swimming stroke proficiently.

5. Key Partners
If the project’s implementation involves other partner agencies, briefly provide the organization name(s) and their role.

The City of Lynnwood will implement this program on their own.

For each swim lesson registered the city will pay 36.25 of the registration fee. We have established an internal project string that will be attached to each of these vouchers so we can meet the 1:1 requirement.
6. Project Budget
Provide an activity-based budget to describe how requested funds will be allocated to support the scope described in question 2.

These requested funds will be used to pay for the registration fee of swim lessons. We are not asking for any funds to offset the cost of producing the swim lesson. Swim lesson cost $72.50 for a series of 10 lessons. These lessons usually last a full quarter or 3 months. During the summer we do offer a more intense everyday set of lessons that conclude every two weeks. At the end of the quarter of lessons we will provide Verdant a report which shows who used the swim lesson vouchers and if they passed their lessons or not.

7. ADDITIONAL COMMENTS
We believe teaching water safety is one of our core responsibilities. We believe that if we can prevent one drowning, that is invaluable. We are grateful that Verdant has supported our 3rd grade swim lesson voucher program since 2011. We look forward to providing these vouchers for our community. This program saves lives.

PRIORITY AREA
Primary Priority Area: Mental Health
Secondary Priority Area: Healthcare Access

OVERVIEW
1. Organization Background and Alignment with Verdant Strategic Priorities:
Briefly describe the organization's background and how its program(s) align with one or more of Verdant’s priority areas (see also Verdant website for more priorities):

- Food Security
- Healthcare Access
- Mental Health

The South County Fire Community Resource Paramedic (CRP) program links patients with the community services they need with the goal of helping people stay safely at home - and out of the emergency room. This is a free service for residents of South Snohomish County including Lynnwood, Edmonds, Mill Creek, Mountlake Terrace & Brier.

Types of assistance the CRP offers:
- Care plan follow-up – we help patients understand doctor’s orders
- Detox programs – for alcoholics or addicts
- Housing referrals – for people at risk of homelessness
- Transportation for care
- Home hazards – identifying and reducing health risks and improve home safety
- In-home care referrals

In addition to the CRP program, South County Fire provides education and distribution of safety devices through the Community Outreach program. The ACT First Aid & CPR class covers the
top three reasons a person will die before first responders arrive including overdose. In the ACT class people learn the signs of overdose and how to treat it, including Narcan administration. In addition to Narcan administration, the class teaches simple CPR instruction for when Narcan doesn’t work.

This request aligns with the mental health priority area and potentially expands access to affordable (no cost) healthcare to county residents.

2. **Project Scope (the “what” and “how”)**

Briefly describe the scope of the project for which funds are requested, how the funds will be applied, and the capacity in place to ensure the successful implementation of the project.

According the Narcan product website, the Naloxone Leave-Behind Program for Law Enforcement, EMS, and Fire Departments enable first responders to leave naloxone kits with the family, friends, or bystanders at the scene of a non-fatal overdose. Survivors are at high risk for repeated overdoses. Equipping the kits with first responders may reduce the amount of time between the onset of respiratory depression and the administration of naloxone. Because damage to the brain and other organs generally increases the longer the victim remains hypoxic, the quicker normal respiration is restored, the better outcomes are likely to be.

A naloxone kit or a Narcan Kit is a rescue kit you can carry with you, keep at home or give to others in need in case of an overdose emergency.

Below presents most recent data (through 2022) about Opioid overdose, illustrating high rates among Lynnwood, Mountlake Terrace, and Edmonds:
In a Wall Street Journal article published on May 18, 2023, it was stated that “overdose deaths in the U.S. edged higher in 2022” marking only the second time drugs killed more than 100,000 people in a year. Washington state last year registered a 21% surge to 2,751 overdose deaths in the CDC projections, trailing only the 22% increase in Wyoming, a smaller state that had 123 deaths.

According to a Snohomish County press release from the office of County Executive Dave Somers, our county has experienced 284 total fatal overdoses – opioids as well as other drugs – averaging more than five people per week in 2022. Between 2017 and 2022, the number of opioid-related overdose deaths reported in Snohomish County more than doubled. The number of those that involved fentanyl jumped from 24 to 189, which represents a nearly eight-fold increase. The county has already exceeded 80 fatal overdoses within the first quarter of 2023, with more than half of them tied to opioids.

Verdant funds will support:

1. Education and training for responders providing Narcan kits*
2. Outreach information to the community about the program*
3. Implement anonymous and confidential report structure for community members that administer Narcan. Provide replacement Narcan when able. *
4. 200 kits

5. Grant check-in at the mid-way point (three months in) and end of grant term to assess what is working well, what could be improved and lessons going forward. *

6. For those that received Narcan as part of a community training, we will follow up with a 6 month, confidential survey to gauge learning retention and to see if Narcan had been administered.

*Note: 100% of the grant funding will go toward the purchase of Narcan (see budget below).

South County Fire is already doing the work of outreaching to our community. We will just expand our scope of work to include areas of the highest need.

Outreach: South County Fire’s Community Outreach Team with the support of the CRPs and Care Coordinators will provide Narcan kits along with education and any need for follow-up and support to access other services and organizations when applicable.

Capacity: The program lead overseeing the implementation of the project will be South County CRP Captain Nicole Picknell in partnership with Shawneri Guzman, Community Outreach Manager. Again, we are already doing the work we are just expanding our reach and adding the distribution of Narcan.

Target Audience: We will identify target groups and businesses in our service area where a higher number of overdoses are occurring. Hotels, motels and places of business where vulnerable populations gather on a regular basis are just a few of those areas. We will also identify key members of our community that serve high risk groups to provide bystander training.

3. Population Beneficiaries (the “who”)
Briefly describe the population benefiting from the proposed activities or services and estimate the percentage residing in Verdant Service Area. Verdant funding is required to support residents in the Verdant Service Area.

Underserved community members and unhoused individuals in the Verdant Service Area.

4. Desired Outcomes
Briefly describe realistic outputs and/or outcomes over the proposed performance period.

South County Fire will measure the following over the next six months:

- 200 people will receive Narcan Kits (limit 1 per household)
- 400 people will be trained for the first time on how to use Narcan
- 10 community trainings will be conducted
5. Key Partners
If the project’s implementation involves other partner agencies, briefly provide the organization name(s) and their role.

South County Fire, LEAD, Edmonds PD, Lynnwood PD, Mountlake Terrace PD.

Additionally, we are seeking matching grant funds from the City of Edmonds and the Snohomish Health Department as supported by the County Executive and Senator Cantwell.

6. Project Budget
Provide an activity-based budget to describe how requested funds will be allocated to support the scope described in question 2.

Narcan Kits: 4ml (2 pack) $9500 for 200 kits + tax & shipping

All other costs (education, public outreach, grant administration) are in kind through South County Fire

7. ADDITIONAL COMMENTS
South County Fire has excellent media and community contacts and would love to work with Verdant’s PIO to do a joint press release and social media push.

</table>

**Revenues:**
- **Rental Income:** Two suites are still vacant at Kruger Clinic. (#110; 2025 SF & 270; 1945 SF). Repair and refresh has been completed and suites are being actively brokered. Estimated revenue loss from vacancy is ~$100K rent and ~$65K in CAM. Value Village lot lease continues into 2023 as month to month. Deferred revenue $26 per month. Deferred rent adjustments have been eliminated with the application of GASB 87 accounting for leases. Estimates were inadvertently budgeted for 2023. There will be a month and year to date variance on revenue line through 2023 as a result. Cash rental revenue is on pace with budget.

- **Grant Repayments:** January 2023-$43K Project Access. None February-May 2023.

**Expenses:**
- **Operating:** Operating revenue is trending favorably due to grant repayment and the deferred rent adjustments in budgeted figure. Levy Income-2023 Rate of $215k per month

**Investment Income-Month of May 23:** Interest income $141k; realized loss ($28k) unrealized loss ($192k). Will evaluate a potential budget adjustment for investment revenue at Q-2, 2023; Budgeted at $180k YTD of $100k budgeted for year. 2 new applications are under review in June. (Swim and Narcam)

**GASB 87 Lease Revenues-Lease and Interest Income:**
All entries to apply the impact of the standard for 2021 and 2022 were recorded retroactively at 12/31/22. Impact was reviewed at the November 2022 finance and board meetings and will be again illustrated with the 2023 audit report. 2023 revenue (lease and interest) entries related to the GASB 87 implementation are not being recorded on an interim basis to the internal management use financials so as not to distort the interim financials and budget reviews. These entries will be recorded annually at each calendar year end.

**Expenses-Program:**
- **External Programs:** May 2023-$694k; YTD $3.48MM of $3.5MM budgeted. This includes 3rd and final month of 90 day approved continuation payments for partners whose contracts ended 12/31/22 (~$288k/month x 3 mo.), as well as existing legacy contract payments for previously issued awards ending in 2022. April 2023 is month 1 for the spring award cycle and also included a 2nd set of continuation awards.

**Internal Programs:** May 2023 $7k, of $18k budgeted for the month. YTD $87k of $139k budgeted.

**Superintendent Discretionary:** May 2023-$694k; YTD $3.48MM of $3.5MM budgeted. This includes 3rd and final month of 90 day approved continuation payments for partners whose contracts ended 12/31/22 (~$288k/month x 3 mo.), as well as existing legacy contract payments for previously issued awards ending in 2022. April 2023 is month 1 for the spring award cycle and also included a 2nd set of continuation awards.

**Superintendent Discretionary:** May 2023-$22k - Asian Service Center, Inside Health, VOA special fund for (emergency shelter)

**Expenses-Operating:**
- **Trending below budget for month and YTD at this time. Unbudgeted expenses incurred to date: Increase in insurance premiums due to property valuation adjustment; Accounting contractor fees due to unsuccessful recruitment efforts. (partially offset by vacancy). As built drawings for HVAC system. Wellness Center Security services. Contracted staff for grants team; partially offset by <> in salaries. Deicing and sanding services to parking lots. Frequency and vendor increases. 2 additional 2022 security invoices billed to Kruger from Allied paid in 2023. KWB Security for WC.

**Capital costs and project management fees related to the Kruger refresh, Kruger suite refresh and HVAC mechanical drawings are being captured to construction in progress and do not impact the P&L at this time.**

Verdant Community Social Worker Highlights: May / June 2023

- Case Management – continuing support for fifteen clients. I have continued to utilize the motel rooms, that we have been able to obtain for medical/mental health related respite care.

- Continue to provide inreach/outreach with Swedish Edmonds Hospital. Five new referrals this past month.

- CHART Leadership and Facilitation – Ongoing support for the CHART program and clients.

- VOA 211 Community Resource Advocate – Continuing support and community introductions for Etmon Carranza.

- This past month included, weekly team check ins, monthly County Outreach Coalition, monthly Snohomish County Community Behavioral Health Committee, monthly Snohomish County Connector’s meeting, monthly County and Human Services Providers Call, monthly Vulnerable Adult Taskforce, and monthly Homeless Policy Task Force.

- Attended the Homeless, Mental Health and Drug addiction in the Lynnwood community- Lynnwood City Council Roundtable on June 21, 2023. This three-hour session included police, fire, behavioral health and social services agencies, and people with lived experience. The session was basically a listening session for the city council to learn what organizations are doing to support our homeless, mental health and substance users within our community. The council summed up the discussions with the thoughts and insights that the community does need additional shelter, affordable housing and inpatient treatment centers.

- Currently enrolled in a three-month course titled Grief Educator Certification. Grief Educator Certification is a comprehensive grief training program led by renowned Grief Expert, David Kessler to help you confidently guide others during their time of loss. The course is intended to gain a stronger understanding, and to practice implementing effective techniques to help others find resilience they never knew they had after life’s most challenging events. I am learning about life-changing strategies for compassionate listening and pragmatic, future-focused exercises to map a healing plan. I plan to use this certificate to be a strong community resource in times of loss, and possibly provide community education classes upon completion. Class ends on July 11, 2023.

- 2023 Programming –
  - Provider training titled Burnout, Compassion Fatigue, and Moral Injury: Recovery for Behavioral Health Professionals, held on June 6, 2023, was successful with 40 attendees. Overall, a highly successful and praised event, with a total of 40 attendees showing, out of 45 registrations. Usually I end up with about 60% show rate, this training was 90% show rate.
  - New provider training scheduled titled Nutrition Interventions in Behavioral Health. This will be another in-person training, with a lunch and free CEUs for behavioral health participants.
  - In the initial stages of planning an event in September, Suicide Prevention Month, to include a keynote and other presenters around suicide prevention. Keynote will be Kevin Hines, a national award-winning speaker and survivor of a suicide who attempted to take his life by jumping from the Golden Gate Bridge. In addition to the Edmonds School District, Volunteers of America has been brought on as a major partner in this event.

28-Day Period: May 9th – June 5th, 2023

Facebook

- Reached to 69,981 people
- 546 page visits
- 9 new page likes

Instagram

- Reached to 32,754 people
- 165 profile visits
- 4 new followers

We reached out to 69,981 people on Facebook which is an 18.8% decrease from the previous period, and 32,754 people on Instagram which is a 12.5% decrease. This may be the result of less consistent posting due to less classes being offered this month. There are 9 new Facebook likes and 4 new Instagram followers. The profile visits were 165 for Instagram and 546 for Facebook. We hope to increase the number of likes and followers by continuing to post frequently.

June 14th, 2023 | 1pm-2pm
Proclamation
City of Lynnwood
Recognition of Juneteenth

WHEREAS, in 1619, twenty captured Africans were brought to Virginia as enslaved people, ushering in 246 years of slavery in America; and

WHEREAS, by 1680 as the number of indentured laborers of European descent declined, the enslavement of Africans was widely accepted, and the buying and selling of these human souls became highly profitable in the southern United States; and

WHEREAS, the Emancipation Proclamation of 1863 issued by President Abraham Lincoln freed enslaved people in the 11 Confederate states at war against the Union; however, it wasn’t until December of 1865 when Congress required the Confederate states to ratify the 13th Amendment, thereby abolishing chattel slavery and involuntary servitude; and

WHEREAS, slavery remained relatively unaffected in Texas until June 19th, 1865 when Union troops arrived in Galveston, Texas to take control of the state and freed all enslaved people; and

WHEREAS, Juneteenth is a commemoration of June 19th, 1865, and is now celebrated in many communities in the United States with cookouts, parades, prayer services, and poetry readings; and

WHEREAS, Juneteenth is a time to reflect on the injustice endured by the men, women, and children of African descent brought to this nation against their will, but whose legacy of determination to live free paved the way for our continued fight for justice; and

WHEREAS, on June 19th the City of Lynnwood will honor the legacy of Black and African American ancestors by continuing our commitment to cultivate a community where all have a sense of belonging and feel included, valued and welcome; and

NOW, THEREFORE BE IT RESOLVED, that I, Mayor Christine Frizzell, and the Lynnwood City Council, hereby proclaim Monday, June 19, 2023 as Juneteenth in the City of Lynnwood, and we encourage everyone to celebrate Juneteenth by strengthening our resolve to dismantle systemic racism, denounce hatred and bigotry and renew our pledge to eradicate racial inequity and social injustice in our communities and throughout the world. And acknowledging and recognizing the contributions of enslaved Africans including culture, economic growth, and development.

Christine Frizzell
Mayor
