# **Program Committee Recommendations:**

Lahai Health Dental Program: Recommend funding for 4-month period. The program has underperformed and while some of that was due to turnover in staffing and COVID-19, the committee would like to see consistent outcomes during this period. The committee would be open to renewal funding at the end of 4 months and encourages Lahai to discuss progress with staff regularly.

# Verdant Community Social Worker Highlights: July/August 2020

• During this period of shelter in place, several clients have faced increased behavioral health and medical issues.

I have worked closely with several to work towards improved overall health and wellness. Several of my chronically homeless clients have disappeared; however, I do get reports from police, the hospital, or others if they have had contact with them.

• Client who completed detox (57) is doing very well and remains clean and sober. As this client is isolated,

I was able to find an XBox so they are better able to spend time, and are less lonely.

• The client (53), who decreased drinking, actually turned for the worse and is drinking much more heavily. The client picked up a homeless person and took them home. The person shared heroin with them, but client had never done heroin before, and this lasted for 2 straight days. With the help of Lynnwood Police, we were able to remove homeless person from the premises, but not until after this homeless person stole several hundred dollars, and "trashed" apartment. At this point client did request detox. After arriving at detox client was transported to hospital due to possible concerns over being positive for Covid-19. Client did test negative, and was released after several days in hospital. Unfortunately, client did not return to detox, and is drinking heavily again. As this is a CHART client, the CHART Social Services team is are working on several possible interventions at this point.
